

## **Primary Care improvers conference: building a movement for improvement**

**Date: Tuesday 6 February 2018**

**Time: 09:30 for 10:00 - 16:00 close**

**Venue: The Ashes Suite, Kia Oval, Kennington Oval, London, SE11 5SS**

NHS England's Sustainable Improvement team is hosting the second Primary Care Improvers conference. It will provide likeminded improvement leaders and facilitators with an opportunity to come together to learn, recharge their batteries, share stories about local improvement and connect with others.

Across England more and more people are getting involved in improvement work in primary care. In the last year the Primary Care Improvers Community has almost doubled. Colleagues are doing fantastic work that is making a real difference to patients and staff. It takes sustained hard work and it can be lonely. Community members repeatedly ask for opportunities to meet up with likeminded colleagues.

### **So what are the benefits of attending?**

Through a mix of large and small group work, coaching and facilitation you can:

- Refresh yourself with the latest tools and techniques for quality improvement which you can use in your practice
- Connect with likeminded colleagues to share energy and ideas – learning from both the highs and lows
- Develop a peer support network of people doing similar roles or projects who can help sustain you in your QI work
- Explore how you can create a local movement for improvement
- Have 1:1 'speed coaching' with our QI facilitators on a topic of your choice
- Find out more about the national Primary Care Improvement Community, the impact it is having and how you can shape the community to meet your needs

### **Who is the conference for?**

All improvement leaders/facilitators who are actively working with general practice. Colleagues who have taken part in any element of the Time for Care programme e.g. General Practice Improvement Leaders Programme, Productive General Practice Quick Start or Learning in Action. *Also please bring along a friend/colleague who is interested in finding out more about quality improvement.*

### **How to register a place**
