

# Growing Occupational Health Breakfast Club

Network, learn from others and  
shape the future of OH

Your opportunity to collaborate, develop, innovate and share learning to co-design a 'blueprint' that informs the national 5-year service improvement strategy and roadmap for the future of NHS Occupational Health Services.

## Improving the health and wellbeing of our NHS people

We are on a journey to grow and develop NHS Occupational Health services and support NHS OH people to fulfil their role as strategic, integrated and proactive organisational partners through service improvement.

By March 2022, we will have a roadmap to develop a highly professional, progressive, proactive and supportive service with OH as an empowered, strategic organisational partner with a voice and influence at a senior level.

## The Big OH Breakfasts

We appreciate the pressures on you at this unprecedented time, which is why we have scheduled a series of breakfast sessions for you to join us to co-design this new approach; hear and learn from national leaders and system wide OH improvement programmes; and help craft the future of a new NHS service and develop our OH people.

08:30 - 09:30  
27<sup>th</sup> January 2022  
Growing the OH  
identity and impact

## Who should attend?

We want to hear from OH professionals, our NHS people who use OH services, managers and leaders. You may work for an acute, community, mental health or ambulance trust or for an ICS, CSU or NHSEI - all are welcome.

Look out for  
our Growing  
OH Summit in  
March 2022
