Introduction

A Greater Manchester (GM) wide Mental Health Network has been established which will support the delivery of quality outcomes associated with the implementation of the overall GM Mental Health and Wellbeing Strategy.

The next session of the GM Mental Health Improvement Network will take place on the afternoon of the May 11. The focus of this session will be collaborative working across sectors. We will hear from a range of good practice examples from the perspective of those engaged in the network and delivery of the GM Mental Health Programme and from people receiving services. Together we will consider what makes collaboration successful and how you measure impact.

Objectives

Delegates will:

- Be updated regarding developments of the GM Mental Health and Wellbeing Strategy
- Contribute to the development of principles for guiding the GM Mental Health Network
- Hear from good practice examples of collaborative working
- Help to develop an accepted definition of what collaboration should look like in delivery of the GM Mental Health and Wellbeing Strategy
- Discuss how to effectively measure the outcomes of services where collaboration has been a key feature to better understand the benefits of a collaborative approach
- Understand what actions are required prior to the next GM Mental Health Network session

Target Audience

- Mental Health stakeholder in Greater Manchester
