Introduction

A Greater Manchester-wide Mental Health Network has been established which will support the delivery of quality outcomes associated with the implementation of the overall Greater Manchester Mental Health and Wellbeing Strategy.

The focus of this session will be on children and young people's (CYP) mental health. We will hear about a number of the CYP mental health programmes and projects that are being implemented. There will also be opportunities to support the development of these programmes and projects and discuss successes and challenges and how these may be overcome.

Objectives

Delegates will:

- Hear from people with lived experience of mental ill health.
- Receive a brief overview of the Greater Manchester Mental Health Programme and have the opportunity to ask any questions.
- Learn about four of the key CYP mental health programmes that have received Greater Manchester transformation funding.
- Contribute to the development of action plans to improve CYP mental health access and waiting times.
- Contribute to the development of a Greater Manchester offer to improve mental health in education settings.
- Understand what actions are required prior to the next Greater Manchester Mental Health Network session.

Target Audience

- Mental Health stakeholder in Greater Manchester
