

Primary Care Development Networks

15 October 2018

5.30pm – 8.30pm

County Hotel Neville Street, Newcastle-Upon-Tyne, NE1 5DF

Aim of the event

Primary care networks support groups of practices to come together locally, in partnership with community services, social care and other providers of health and care services. Where emerging primary care networks are in place, there are clear benefits for patients and clinicians, and these approaches are emerging as the delivery model for primary care of the future.

This event will:

- provide an update on primary care network development;
- provide examples of some of the positive impacts for patients and staff;
- consider what support may be needed in the journey to PCNs and how this could be delivered at a national, regional and local level.

For further information, please contact: Louise Bridgman – l.bridgman@nhs.net
