### **Introduction**

The Greater Manchester Clinical Frailty Charter has been developed by the Greater Manchester Frailty Collaborative and incorporates proposed standards for clinical frailty. The Charter articulates a vision for best practice in Greater Manchester focussing on the identification and assessment of clinical frailty, care planning and interventions. The draft Charter document is available. This free-to-attend one day event will explore:

- The importance of a Charter and Standards in improving services and reducing variation in Greater Manchester.
- The contribution of clinical frailty standards in to wider Greater Manchester social and policy objectives.
- The national perspective on improving services for people living with clinical frailty.
- The evidence base for clinical frailty interventions.
- How we will develop the Greater Manchester Clinical Frailty Network.

### **Stakeholders – this event will be of specific interest to:**

- Clinicians in primary, community, acute and emergency care
