

Thursday 7 March 2019

9.15am	<b>Registration and Refreshments</b>	
	<b>Welcome</b>	
10.00am	<b>Vivienne Parry OBE</b> <i>Writer and Broadcaster</i> <b>Professor Dame Sue Hill DBE</b> <i>Chief Scientific Officer, NHS England</i>	Introduction and welcome – setting the scene across the two days. Highlights from the last year and setting the direction of the strategy for healthcare science.
	<b>Setting the Scene</b>	
10.10	<b>Professor Dame Sue Hill DBE</b> <i>NHS England</i>	Setting the context in which healthcare science operates at the cutting edge of the NHS.
	<b>Working with Primary Care</b>	
10.35am	<b>Dr Nikita Kanini</b> <i>NHS England</i>	A session imagining the future of healthcare. To include insights on clinical priorities, the research and innovation agenda and partnerships with academia and industry on how to implement and operationalise the NHS Long Term Plan.
10.55am	<b>Q&amp;A with Professor Dame Sue Hill DBE</b>	
	<b>Working with Industry</b>	
11.05am	<b>Dr Liz Mear</b> <i>Innovation Agency</i>	
11.20am	<b>Q&amp;A with Professor Dame Sue Hill DBE</b>	
11.30am	<b>Louise Houson</b> <i>MSD</i>	
11.40am	<b>Break</b>	
	<b>Enabling the Future</b>	
12.10pm	<b>Vivienne Parry OBE</b> <i>in conversation with</i> <b>Angela Douglas MBE</b> <i>NHS England</i> <b>Rebecca Middleton</b> <i>Genomics England Patient Participation Panel</i> <b>Professor Wendy Tindale OBE</b> , <i>Sheffield Teaching Hospitals NHS Foundation Trust</i> <b>Dr Angela Davies</b> <i>University of Manchester</i>	An interactive panel discussion on how healthcare science and healthcare scientists can deliver the future of the NHS. To include patient, scientist, academic and industry perspectives.
1.00pm	<b>Lunch and Networking</b>	
	<b>Workshops – Enabling the strategic approach for the future of healthcare science</b> <i>Delegates will be split into two groups and attend both consecutively (30 minutes each)</i>	
1.45pm	<b>A: An AMR Free World</b> <i>with Professor Mark Fielder, Kingston University</i> This workshop will address the role of science in addressing one of the biggest global health challenges we face and the transformative steps that need to be taken across human, animal and environmental health.	<b>B: Healthcare Scientists Leading Change</b> <i>with Kiran Chauhan, NHS Improvement</i> This workshop will brainstorm how healthcare scientists can be fully engaged in the Integrated Care Systems and map out routes for healthcare scientists to be decision makers within this emerging environment.
3.00pm	<b>Networking and Refreshments</b>	
	<b>The Digital Agenda</b>	
3.15pm	<b>Matthew Swindells</b> <i>NHS England</i>	This session will explore the implications of where digital technology, data and AI is taking us and empowering healthcare scientists to become the analysers and enablers of healthcare.
3.30pm	<b>John Noble CBE</b> <i>NHS Digital</i>	
3.45pm	<b>Arthur Hermann</b> <i>Kaiser Permanente</i>	
4.00pm	<b>Q&amp;A</b>	
	<b>Healthcare Scientists Delivering High Quality Outcomes</b>	
4.15pm	<b>Mary Dixon-Woods</b> <i>THIS Institute</i>	Setting out the role of healthcare scientists in delivering high quality care and contributing to the clear improvement priorities set out in the Long Term Plan.
4.35pm	<b>Julian Hartley</b> <i>Leeds Teaching Hospitals NHS Trust</i>	
4.55pm	<b>Q&amp;A</b>	
5.00pm	<b>Networking and Refreshments</b>	
6.00pm	<b>2019 Healthcare Science Awards with Vivienne Parry OBE and Lord Prior of Brampton</b>	

Friday 8 March 2019

8.00am	<b>Breakfast Launch</b>	
	<b>Vivienne Parry OBE, Professor Dame Sue Hill DBE and Women in Science and Engineering (WISE)</b> Breakfast launch of the CSO's Women in Science and Engineering Fellowship	
9.00am	<b>Networking and Refreshments</b>	
	<b>Welcome</b>	
9.45am	<b>Vivienne Parry OBE</b> <i>Writer and Broadcaster</i>	Introduction to day two.
	<b>Keynote</b>	
10.00am	<b>Simon Stevens</b> <i>NHS England</i>	Keynote address setting out what science can contribute to achieving the long-term plan for the NHS and contribute to patient outcomes.
	<b>The Future of Science</b>	
10.25am	<b>Professor Rachel McKendry</b> <i>London Centre for Nano Technology</i>	This session will explore the new technologies that are going to change the landscape of healthcare and systematically address the greatest challenges we face.
10.50am	<b>Q&amp;A</b>	
11.00am	<b>Networking and Refreshments</b>	
	<b>Partnering for Transformation</b>	
11.30am	<b>Professor Tony Young OBE</b> <i>NHS England</i>	At a time where healthcare scientists are changing how patients interact with the health system, how can we best harness networks and work across boundaries?
11.45am	<b>Professor Sian Ellard OBE</b> <i>University of Exeter Medical School</i>	
12.00pm	<b>Professor Andrew Nisbet</b> <i>National Physical Laboratory</i>	This session will explore how healthcare scientists can address 'knotty problems' in healthcare by working in partnership with others and share information and knowledge to transform service models.
12.15pm	<b>Dr Keith Ridge</b> <i>NHS England</i>	
12.30pm	<b>Q&amp;A</b>	
12.45pm	<b>Lunch and Networking</b>	
	<b>Workshops – Enabling the strategic approach for the future of healthcare science</b> <i>Delegates will be split into two groups and attend both consecutively (30 minutes each)</i>	
1.45pm	<b>C: Shaping the future healthcare workforce</b> <i>with Angela Douglas MBE, Deputy Chief Scientific Officer</i>	<b>D: Partnering to improve information and knowledge</b> <i>with KTP Associates and partners</i>
	This engagement workshop is an opportunity to have your say on the priorities for healthcare scientists for the next year and in the future so that we have an empowered healthcare science workforce driving change on behalf of patients.	This workshop will share lessons learned for partnering with industry, academia, patients and the public and how this can improve outcomes for patients through the dissemination of information and knowledge.
3.00pm	<b>Networking and Refreshments</b>	
	<b>Learning from Others – Leadership</b>	
3.30pm	<b>Helen Bevan</b> <i>NHS Horizons</i> in conversation with <b>Dr Claire Fuller</b> <i>Surrey Heartlands Health and Care Partnership</i> <b>Nicola Ding</b> <i>Your.MD.</i>	This session will challenge healthcare scientists to learn from other sectors to develop leadership and shift from becoming specialists to 'versatilists'.
	<b>Keynote</b>	
4.15pm	<b>Professor Daniel Davis</b> <i>Manchester Collaborative Centre for Inflammation Research</i>	Keynote address from author of 'The Beautiful Cure', a ground-breaking scientific quest to understand how it fights disease and enables the body to heal itself.
4.45pm	<b>Professor Dame Sue Hill DBE</b>	Reflections across the two days.
5.00pm	<b>Close</b>
