Introduction, objectives, aim and purpose

This is an opportunity to have greater insight into what the Greater Manchester Teaching Care Homes Programme has undertaken over the last 8 months. There will be a chance to listen to the innovative, creative, co-designed elements of the programme delivered by the workstream leads and participating care home representatives.

Participants will see what the care homes within localities across Greater Manchester have participated in. The event will give a flavour of the strong relationships that have been forged across boundaries within Greater Manchester, doors that have been opened to the care home sector and the positive impact this has in turn had on individuals who reside in the care homes and employees.
